Subject: Cutting funding for the Disability

Please don't cut the funding for the organizations that help the disable. I have seen what the help they give the disable to adjust to their lives and help them get working skills so they can get a job. So please reconsider any cuts to these much needed organizations, if you can find millions of dollars to build a bus route between Hartford & New Britain as well the high speed train form New Haven to Hartford that according to the polls I've seen that 90% of the citizens of Connecticut is against as well as when I talk to people while I'm out and this subject comes up no one is for them.

Sincerely,

Peter Harmen Burke
