

I know that your committee is considering changing the law to allow a short on-line computer course to take the place of classroom-based safe boating courses. That's the change in the law that is also is going to allow on-line training for firearms. This is a really bad idea.

Please do not allow this new law to go into effect.

In light of the current issues with firearms, I strongly oppose changing the training to online potentially making access easier rather than more stringent.
