

Good day Dear Sirs and Madams

My name is Adrien J. Lagassie Jr. I live in New Britain and have a friend whom is a Client of B.E.S.B. and is under the B.E.P. program. We heard that the DEEP wishes to eliminate these people from conducting gainful employment business by eliminating their rights under the Randolph-Sheppard act to be in the state parks that have concession stands in them. As I understand the Randolph- Sheppard act is a Federal Mandate which costs the State of Connecticut very little in terms of monies. Without this program these people would become a burden to the state. they also have right under the persons with disabilities act. I there fore am asking that all of the state senate and state congressional members vote down or at best iggnore Bill-6654. As I am sure that the state would not like to be embroiled in a federal law suite. Thank you in advance for your consideration foe voting down this egregious bill.

Adrien J. Lagassie Jr.
270 Maple St. New Britain Ct.
