

I kindly ask you to oppose bear hunting and Sunday hunting. I am a 20+ year resident of Tolland, CT with property that backs up to woods. I have horses and often have seen hunters in the back woods. I have a great fear they could shoot one of my horses without knowing it is not a deer or even a bear. My children also play in our back yard and I am afraid of stray bullets. Bears are kind animals that do not bother anyone unless provoked. Please do not allow bear hunting nor hunting on Sundays when I like to hike with my family and dog on a leash. I beg you to protect our peaceful rights and oppose bear hunting and hunting on Sundays. Thank you so much for your kind consideration.
