

Dear Honorable Members of the Environment Committee:

Please accept my written testimony for the Environment Committee meeting on Friday 3/22/13.

I oppose both Sunday hunting and bear hunting. I feel both are cruel and unnecessary. I am of the 99% of the population that does not hunt; in fact I enjoy hiking and mountain biking in the woods, as do many individuals and families who would like to go in the woods at least one day of the week without fear of hunter's shots. Bears should be protected and not shot.

Thank you for opposing bear and Sunday hunting.
Sincerely,

Sally Westcott
