

Please!!! Do Not Pass Either Of These Bills!!!

I live in Barkhamsted! Bears visit my feeders in early spring signaling it's time to bring in my feeders. I don't leave my garbage out thus I NEVER have problems with bears that are in our beautiful forests. Those forests provide wonderful quiet walks on Sundays so why would I want some hunter with a gun out there ready to shoot anything that moves!! Sure-there are many responsible hunters BUT, there are too many that are irresponsible! I have three dogs that walk with me-on leash-but I never want to experience the fatal shooting of one of my family pets.

We are a civilized state-let's keep it that way. Hunters have enough going for them-they don't need Bears or Sundays!
