

I would like to submit this testimony in support of SB915. I am fortunate to have gainful employment which has given me the opportunity to make extra money by working on Saturdays. So, I am forced to give up my favorite pastime(bowhunting) on my only scheduled off day. I would like to see the state wide adoption of zone11 &12 rules, including State WMA's and Forests for fairness to hunters in central and northern parts of the state.

Thank you for your consideration.

Andrew Lesnieski
