

I wholeheartedly approve of SB No. 915 to allow Sunday hunting.
Most hunters today find it difficult to get free time to hunt in the allowed time on Saturday. Most hunters that I know have to work on Saturday just to make a living in these difficult times.
Sunday hunting will allow them that one extra day to get out and enjoy themselves.
This Bill will also allow DEEP to help control the deer herd in a time when there are less and less hunters every year to harvest deer.
