

I would like to express my support for allowing Sunday bow hunting, not just on private land but also on state land. We are one of a few states with these antiquated laws on the books and it is time the change this. I work as a RN in one the largest hospitals in CT and part of my job description is to be on call for the Heart and Vascular procedure center for emergencies. This prohibits me from hunting on many Saturdays when others are able. The ability to hunt on Sundays will enhance my enjoyment of the sport and my ability to use the hunting licence that I pay large fees for.

Yours truly,
Julie Von Kanel
