

As a lifetime avid outdoorsman, I feel having the opportunity to hunt on Sunday in the State of CT would greatly enhance my enjoyment of the sport. This is a great option for those of us who work full time Monday through Friday. As the law stands now, this typically leads to one day per week where I can engage in this activity. With the weather in our region, this often limits the days available to hunt. I spend over \$100.00 per year on my license for the right to hunt and many more dollars at retail locations which also helps boost the economy. CT is one of the few states left in the U.S. where Sunday hunting is prohibited.

From an outdoor enthusiast in CT, I would appreciate your support of this new legislation.

Sincerely,

Justin Elza
