

Dear Committee Members;

I apologize for being unable to attend the public hearing today regarding limited hunting on Sunday. I urge you to support this measures and to consider allowing all types of hunting on Sunday during legal seasons. Hunting is a cost effective, valuable tool in conservation and through taxes paid by sportsmen allows the beautiful natural resources to be enjoyed by all citizens. Hunting also properly manages wildlife populations which will ensure that these treasures are available for future generations.

I am a volunteer Hunting Safety Instructor pursuant to C.G.S 26-31 and can attest to the fact that the State's program is thorough. Graduates are safe, ethical hunters who can safely share the woods with our non-hunting neighbors.

Thank you for considering my opinion.
