

To whom it may concern,

I am an avid bow hunter. I am writing this email in support of the SB915. To be able to bow hunt on Sunday would absolutely mean a great deal to me. Me and my father bow hunt together but as of late both of our jobs have been very time consuming and have only been able to hunt Saturdays together. So you see if we were able to hunt on Sundays we would have four more days a month to be able to spend father son time together that I so desperately need. It's not just about the hunting but the experience and the guidance that he provides in all sorts of areas when we are together is crucial in my development as a young man. So I hope you can see Sunday hunting would mean a great deal to both of us. Thank you for your consideration.
