

would like your support for Sunday hunting bill, with all the family commitments and working 6 days a week, it is very hard for myself and my 16 year old daughter to go hunting on our private land, she is very committed to bow hunting but with little time during the season she can only get out a few times a year. So, with Sunday hunting it give my daughter and myself a extra day to enjoy the outside together, something that is very hard at this time.

Thank

you,

Robert Russo
