

To whom it may concern:

As the owner of several classic/customized vehicles, I am opposed to legislation H.B. 5102.

H.B. 5102 ignores the fact that existing antique, rare or special interest motor vehicles and modified antique motor vehicles constitute a small portion of the vehicle fleet and are well-maintained, infrequently operated and deserving of continued property tax benefits.

The state should be more concerned with regular use vehicles that are not registered and not insured. Not only are the owners operating these vehicles illegally, they are also not paying property tax on these vehicles.

As a law abiding, tax paying citizen, why should I have to pay MORE taxes because these criminals don't pay their taxes!
