

Dear Senator Gerratana, Representative Johnson and members of the Public Health Committee.

I support Bill 6592: An Act Concerning Certified Homeopaths, the law that will allow certified classical homeopaths to practice homeopathy in Connecticut.

I am Michael Beale, a fifteen year old who has been treated with homeopathy as an infant, a toddler, a growing kid and even now as an adolescent. The choice was made by my parents, out of my control. They thankfully chose homeopathy. To me, homeopathy is the reason to this day, I have a strong immune system,. My family avoids harmful chemicals in foods and medicines and I was treated with homeopathy since my conception. I only have to go to the doctor's office once a year for a regular checkup.

Unfortunately, some of my friends were not treated with homeopathy when they were young, and some never were and never will be treated with safer medicine because of a lack of Certified Classical Homeopaths in Connecticut. Typically they get sicker easier, and tend to stay sicker longer without the use of pure, natural medicine. There should be easier access to Natural Medicine to make a healthier and more productive population by allowing Certified Classical Homeopaths to practice in the state of Connecticut.

I completely agree & support allowing nationally board certified classical homeopaths to be able to offer their services in Connecticut.

Thank you in advance,

Michael Beale
