

To Senator Gerratana and Representative Johnson and members of the Public Health Committee:

I am writing in support of Raised Bill 6592: An Act Concerning Certified Homeopaths. As a physician in private practice for 30 years, I have seen first hand the benefits of homeopathy for patients, family and friends. The practitioners who have provided this care have been nationally board certified classical homeopaths (CCHs). I have an M. D. degree from a United States Medical School and have also studied homeopathy. Each modality has its uniqueness and both require very rigorous training. Training in either discipline does not imply facility in the other. The CCH certification, recognized worldwide, means that the practitioner has spent several years in the intensive study of homeopathy and has passed certifying exams. I would like to have CCH certified homeopaths available to my family in CT and urge you to support Raised Bill No. 6592
