

Susan Felger

I strongly support House Bill # 6592-AN ACT CONCERNING CERTIFICATION OF CLASSICAL HOMEOPATHS.

For more than 10 years homeopathy has been my primary form of health care and healing. And I am lucky enough to have worked with two gifted, classically trained, practitioners who could not be more dedicated to their craft and continuing education. I feel that homeopathy provides a unique alternative and adjunct to both allopathic and naturopathic medicine and that all people deserve to choose their path to healing. It is also cost effective and gentle in its methods of action.

On a personal level, I have used homeopathic remedies to treat everything from colds and injuries to chronic depression and gall bladder disease and my daughters learning disabilities, avoiding the side effects of drugs.

This bill would make finding a practitioner of the highest qualifications easier for everyone and would allow responsible choice in healing.

I hope that this bill will voted into law.

Sincerely,

Susan Felger
