

To the Members of the Public Health Committee:

My name is Robin Starkel; I am a resident of Manchester. I am writing to you on behalf of Bill #6592: An Act Concerning Certified Homeopaths.

I strongly support this bill as it will bring the possibility of homeopathic treatment to a wider range of Connecticut citizens. I am very lucky that I was in a position where I could afford to receive homeopathic care when traditional medicine was not able to provide me with the care choices I wanted and needed; not everyone is so lucky. Passage of Bill #6592 will improve the chances for all to receive the benefits of this safe and effective health treatment. Please support the passage of this bill.

Thank you very much for your time and efforts.

Sincerely,

Robin Starkel
