

HB 6645

My name is Mary Lauren and I am a lifelong resident of Connecticut now in East Granby. I oppose HB6645 aid in dying because I believe that many hopeless looking things can turn around given care, love and help. People are most vulnerable when feeling overwhelmed and with the proper help can pass through this phase with a change of heart and desire to live. This bill would not encourage an emphasis in supportive care for those who feel overwhelmed but would encourage them to give up.

Thank you for considering my opinion.
