

HB 6645

To our leaders of CT.

This bill to assist the ill is a license to open the doors to many people who can use this medium for evil. We as a people should do all we can to protect life no matter the condition it's in. We should never want our hands to be apart of something that causes death. A decision A lethal drug enacting a new law to kill leaves us guilty of blood stained hands. I for one am against this bill and I urge you to do the same

Thank you
Lisa Perretta

A CT. Resident
