

Please oppose the outrageous invasion of parental rights proposed by S.B. 374

There is absolutely no basis for this bill. It is all based on "presumption" and not on fact.

This is a violation of democracy and smells of Socialism and big government control.

Think deeply about the effects of passing a bill like this.

When will it end? Will we ever draw the line?

Will we have no control or privacy or choice if bills like this get passed?

Sincerely,

Sharon Christie
