

I am against SB 374 Mandated Assessments of Children.

To whom it may concern,
I am a parent against mandatory assessments of public (and homeschooled) children.

This is a terrible overreach of government and a misuse of funds.

There is a system in place that needs to be fixed, nothing new needs to be created.

Go back and propose a fix to the system, because these proposed sweeping assessments are arbitrary. The children in need are apparent and stand out...and terribly left by a disorganized system that leaves parents unable to get the services they need for their children.

Typical/normal learning and growing kids do not need to be assessed...what a potential waste of time and cash!

Thank you for reading and considering the opposing view.

Mrs. Elizabeth Parenzan
