To Whom It May Concern:

Receiving the Governor's Scholarship was an enormous help in going back to get my teaching degree. I was able to start classes at Albertus Magnus College with no out of pocket costs. This was wonderful given the fact my husband and I have three children, a house and very little extra income to pay for tuition and books. I hope the State of Connecticut continues to provide these scholarships to students so they can have the same opportunities I had.

Thank you,

Melissa Pappacoda-Ruggiero
