

This bill is a mere postponement on what needs to be utterly repealed.

I have just had the following message from a very good friend in Wilton:

"My daughter-in-law is a teacher, and she will not teach anymore after this year because of CCSS. She cannot teach properly, and the administration listens in on her to make sure she is not teaching 'out of the box'. Standards have been lowered, along with the grading system."

This has got to stop!! Johanna J. L. Engel, Redding, CT
