

To whom it may concern:

My name is Joshua Perkins. I'm a citizen of Connecticut, and **I'm writing in opposition to H.B. 5078.**

I am truly shocked that this ill-conceived bill – whose proponents' support is founded on misleading misinformation, if not intentionally deceitful arguments -- is even being considered in the first place.

Apart from the unshakable reality that H.B. 5078's proposed common core moratorium would pose a logistical nightmare for districts (since they would have to undo all of the hard work they've already done over the last four years), it would also result in adverse consequences for the future of Connecticut's children as well as for the future of our state's economy.

Sincerely,

Joshua Perkins
