

I am writing in favor of the Common Core State Standards for both Math and English Language Arts. Unfortunately, Legislators, the Press, and social media have lumped relative terms together and are also calling the SBAC testing and teacher evaluation plans "Common Core." This confusion is having a negative effect on the excellent, rigorous, cohesive standards. As both an educator and parent, the Common Core State Standards identify exactly what I believe children should know and be able to do. Please do not "pause" these standards as the social media and mainstream media suggest. These standards are welcomed and should be supported and funded appropriately.

Thank you,  
Michelle Peterson
