

I am opposed to hunting in residential neighborhoods on ANY day. It is a dangerous condition to allow bow hunting, arrow ballistics of 300+ feet per second in neighborhoods where young children play with family pets.

We do not want strangers with weapons in our neighborhoods.

We do not want the anxiety that accompanies bow hunting in our neighborhoods with regard to ricochet while children play out side.

We do not want mortally wounded animals wandering onto our properties to die.

We do not want strangers with weapons trespassing on our properties to retrieve their kill.

We do not want the anxiety that accompanies bow hunting where or pets are concerned.

We do not want hunting of any kind in our neighborhoods.

Hunting in our neighborhoods is a tragedy in the making.

Stop hunting in residential neighborhoods it is too dangerous.

Mark Demmerle
