

Feb. 25, 2014

Good evening, Ed.

I find I'm late in submitting official comments (public hearing was on the 19th, I think.).

However, I wanted to let you know of my support for the bill helping to secure the preservation of lands under DEEP and Dep. of Agriculture protection. (SB 70)

As you know, CT needs all the open, wild, scenic, and recreational lands it has remaining. I think this is a step in the right direction. Thanks for listening.

Best,

Lindsay
