Bamboo planting

Hi Holly,

I am enclosing a file that has four photos of our only planting of bamboo on the property. This planting is at the roadside to the left of the left driveway entrance (facing from road). This section of bamboo was planted so long ago that many employees can't remember specifically how long it was, but we can safely say it has been at least 10 years. It was put there as a screen to hide the unsightly bagged bulk products such as mulches and soils. You can see from the photos that there are very healthy clumps of Miscanthus grasses growing alongside the Bamboo with no issues at all.

Hope this is helpful...Please let me know if there is anything else I can do.

Respectfully,

Angie Wickerd
