

Attn: Environmental Committee
Connecticut State Capitol
210 Capitol Avenue
Hartford, CT 06106-1591

Dear Committee Members,

Please protect our state's drinking water and our public health by supporting SB 237, An Act Prohibiting the Storage or Disposal of SB 237, An Act Prohibiting the Storage or Disposal of Fracking Waste in CT, the bill to ban the storage or disposal of fracking waste in Connecticut.

There is no way to adequately treat or safely dispose of fracking wastewater, a toxic byproduct of fracking which poses a huge public health threat. Regulations cannot fully protect Connecticut, which is why we must prohibit fracking waste from entering the state completely. When this waste is hauled long distance over public roads, it poses a huge risk of accidents and spills. This would be devastating to our health and environment in CT.

Please do not sacrifice the long term economic benefits of a toxin-free environment for the short term benefits of energy profits.

Fracking wastewater is too risky for Connecticut. I urge you to protect your constituents by prohibiting this waste from entering our state.

Sincerely,

Wendy Skratt
