

I am opposed to spending tax money on the subject bill. I am totally in favor of local farms, farm markets and CSA's which I am aware of and support on a regular basis. But I think there are more important items for State politicians to be spending their time and my money on than this bill. Instead use the money, regardless of how little, to repair roads and bridges, reduce the State deficit and unfunded pension liabilities, stop the "Busway" or just reduce my taxes.
