

We are in support of connecting the Airline Trail to Middletown and Portland. My cousin came all the way from South Dakota to bicycle on the trail. He has biked all over the US and loved being on the Airline Trail. It would be great to connect it to Middletown where a walker or bicyclist could easily park to get on the trail and then be able to cross the Connecticut River. Please help preserve the unprotected areas. This is a real gem and it would be a shame to let the work on this drop.
