The Air Line Trail is important to me because it is a safe and beautiful stretch of land that would be a go-to destination for families wanting to ever increasing escape traffic . Also, it would be very useful to connect the 17 miles of existing trail to downtown Portland, the Riverside Park, the Arrigoni Bridge, and Middletown to bring more exposure to these areas and to create a ride worthy trail for those serious cyclists. Thank you for your time!

Sincerely,

Stephanie Zoltewicz (avid cyclist)
