

Dear Energy and Technology Committee member,

This is in support for the bill currently before your committee, HB 5412, "An Act Concerning Shared Clean Energy Facilities." As you know, most homeowners in Connecticut cannot access affordable clean energy due to fact that they do not have a suitable site for renewable energy on their own property.

HB 5412 will enable all energy customers to participate in shared clean energy facilities and receive credit on their utility bill for their portion of the clean energy produced.

Passage of HB 5412 will benefit renters, condo-owners, and homeowners with tree-shaded or otherwise unsuitable homes and enable them to directly benefit from the state's clean energy programs.

It will vastly reduce the need to run expensive and polluting power plants at peak times when solar works the best.

Thank you,

Abdul Majidy
