

Dear Energy and Technology Committee member,

I am a Massachusetts resident, yet this bill feels very important to me as a sustainable way to assist the homeowners of Connecticut who would otherwise find it too costly to participate in this amazing opportunity!

I am writing to encourage your support for the bill currently before your committee, HB 5412, "An Act Concerning Shared Clean Energy Facilities." The majority of Connecticut homeowners cannot access affordable clean energy because they do not have a suitable site for renewable energy on their own property.

This act will enable all energy customers to participate in shared clean energy facilities and receive credit on their utility bill for their portion of the clean energy produced.

Passage of the act will benefit renters, condo-owners, and homeowners with tree-shaded or otherwise unsuitable homes and enable them to directly benefit from the state's clean energy programs they contribute into.

It also benefits everyone in the state by reducing the need to run expensive and polluting power plants at peak times when solar works the best.

I'd love to see this one PASS!

Thank you,
Ziji B. Goren
Hadley, MA.
