

Dear Committee Members,

I am a retired teacher (33 years) from Norwalk and am writing to encourage you to pass the bill that phases in a 50% exemption for our teacher pensions. We have already paid income tax on this money and now need help to be able to stay and live our retirement years in CT. We would love to stay in our home, but have considered moving because of the taxes for retirees in our state.

Please pass this bill to help the teachers who have dedicated their lives to teaching the children of CT.

Thank you for your consideration.

Sincerely,

Suzanne C. Kelley
