Testimony in Support of HB 5358

An Act Authorizing the Regulation Review Committee to Recommend the Repeal of Obsolete or Burdensome Regulations

Government Administration and Elections Committee

March 3, 2014

Chairmen Jutila and Musto, Ranking Members Hwang and McLachlan and Members of the Government Administration and Elections Committee. I would like to thank the Committee for the opportunity to testify in support of Raised Bill Number 5358; AN ACT AUTHORIZING THE REGULATION REVIEW COMMITTEE TO RECOMMEND THE REPEAL OF OBSOLETE OR BURDENSOME REGULATIONS.

This bill would allow the Regulation Review Committee to review any regulation of any agency to determine whether the regulation is obsolete or is too onerous to those who are required to comply with the regulation.

As a small business owner I have seen firsthand how outdated regulations can make things such as obtaining a permit difficult and even burdensome. Streamlining this process will help business, aid in job growth, and continue our state's economic development.

As a State Representative for the last three years; I have heard from many constituents and spoken with fellow legislators on both sides of the isle who all agree that these regulations are confusing. We have an opportunity to make this process efficient and not only for those who are creating business in this state but those who regulate them as well.

The measures proposed in this bill should provide an avenue to alleviate arduous regulations left in place for far too long.

Sincerely,
Dave Yaccarino
