

Dear Legislatures,

I am a former Ace Oil prepay oil customer and now have my oil secured through Roman Oil Company. I believe the prepay program offers me security by know what my price will be for the winter. My hope is that the government will check to make sure oil companies are abiding by the current laws rather than creating new laws that would drive the cost up.

The closing of Ace Oil has already cost money please do make a law that would have me pay more for their mistakes.

Sincerely,

A handwritten signature in cursive script that reads "Marsha Rand".
