Subject: Bill 259

Dwight A. Phelps
7 Middle Dr.
Windsor Locks, CT

This Bill 259, I understand that it will cut the "drug free zone" around schools, day care centers or public housing complex down to 200 feet from the now 1,500 feet zone.

Why do we want this?

I always thought selling illegal drugs was illegal at any distance. Why do we want to send a message to the sellers of illegal drugs that now it is ok to sell illegal drugs and now you can sell them even closer to children.

There is something wrong with our system that helps the sellers of illegal drugs do business.
