

Bill # 259

JUD, Testimony,

If I am reading Raised Bill 259 correctly someone is trying to narrow down the Drug Free Zone to 200 feet around our schools. It appears to me you will be allowing drug dealers to ply their trade much closer, and in most cases, in site of our school children. This is unbelievable.

The motivation of the originators of this Bill is suspect.

Below are the Bill references for my comments..

DO NOT PASS THIS BILL.
