

Regarding Bill 259, which, incredibly, I understand would *reduce* the "drug free zone" around schools from 1,500 feet to 200 feet: *are you kidding me?*

Why on earth would we want drug dealers and users closer to schools?

Last I heard, dealing drugs to school kids was illegal.

If anything, the "drug free zone" should be expanded.

Please use common sense to put our kids safety ahead of the rights of drug dealers and drug users.

Thank you,

Paul Najarian
