

Bill # 259

Dear All,

Illegal drugs and/or the illegal use of prescription drugs do not belong in CT communities. As a result, clearly, drugs and drug dealers do not belong near our schools either. Strengthen the consequences of illegal drug use and distribution. Keep such matters as far away from schools as possible. CT does not need to become the easiest state to live in for illegal drug sales near schools. The costs to the health of our residents, families, law enforcement, community infrastructure such as hospitals, and our economy are far too high.

Regards,

Robert C. Young
New Canaan
