Subject: nash hearing

Pls protect the CT taxpayers from Carla Nash's well organized attorney and public relations teams as they attempt to sue the state for \$150 million over the chimp attack. Carla Nash is a sympathetic victim. But she was very familiar with the chimp. She would have protested the removal of her friend's chimp. The taxpayers are not at fault and don't owe her or her attorneys any money. The state has "deep pockets" and is a tempting target for lawsuits. That is why you must maintain CT sovereign immunity. The victim was on Eye Witness news recently, drumming up support for her lawsuit. Her attorneys are well organized (and hope to be well paid) on this issue, unlike the unsuspecting CT taxpayers.
