**Subject:** Charla Nash : Should not be able to sue State

I do feel sorry for Charla Nash but do not think that she should be able to sue the State. Charla knew Travis; she interacted with the chimp many times. She never said anything to the State or police that he should be removed from the home where he lived until now when she wants to sue the State; she never mentioned to anyone that he was a danger. The day Travis attacked Ms Nash she knew what she was going into. She volunteered to help her friend get the chimp under control. She put herself into a dangerous situation. She is responsible for what happened to her; she put herself into the situation. People need to take responsibility for their own actions and not look for another to bail them out when they messed up. Signed
