Subject: Support SB32

I support a raise in the minimum wage.

I work at Gaylord Hospital as an Outpatient Therapist. Everyday, I see people struggling to rejoin the workforce. My patients are often ecstatic to get any job as long as they can contribute their labor, once again. It is a travesty when the wage for that work is not enough to support their independence.

In general: if a person works, then that work should be enough to earn them a living.
