Subject: Support SB32

I support a raise in the minimum wage, please pass SB32. The current minimum wage in the state of Connecticut is not a living wage, full time workers can't afford the basics and often are living under the federal poverty rate. Too many families have to juggle between paying their bills and/or putting food on the table, working families should not have to experience food insecurity in one of the richest states in the USA. As congress continues to resist the President's call for an increase in the federal minimum wage, I encouraged you to push Connecticut to be a leading state in the country and pave the way for a living wage that supports all families and strengthens our economy and the future of Connecticut's children.
