Everyone deserves a secure retirement. Social Security will not be enough for most people. There are rent, groceries and utilities that need to be paid every month. So many companies have either abandoned retirement plans or curtailed them drastically. A state sponsored plan, that would follow the individual from job to job, would allow everyone to invest in their future retirement. It would also eliminate all the fees paid to brokers that help to minimize gains in the 401k plans that some companies still offer. Please give this matter careful consideration. Without a decent retirement, many of the elderly will end up depending on government support just to get by.  
Thank you for your time.

Sincerely  
Dan Hatch
