

**Testimony for Planning and Development Committee
Concerning SB 264**

**Karen Laski
Board member- CT Votes for Animal**

Hello Everyone,

I support SB 264, An Act establishing a task force on the humane treatment of animals in shelters.

All the aspects of the bill are very important to me and everyone in CT who cares about animals. We all seek humane conditions, further training for ACO's, screening for potential fosters and adopters and welcome better relationships with rescue volunteers and ACO's. Thank you for this bill to allow discussion toward improving the lives of animals in shelters.
