

I am writing to support HB55580 "AN ACT CONCERNING THE PESTICIDE ADVISORY COUNCIL, THE RECOMMENDATIONS OF THE EMERGENCY MEDICAL SERVICES PRIMARY SERVICE AREA TASK FORCE AND THE ELIMINATION OF A MUNICIPAL MANDATE".

HB5580 includes all 5 recommendations of the Emergency Medical Services Primary Services Area Task Force. While all of these recommendations will improve delivery of EMS in Connecticut, it is Recommendation #5, The Alternative Provision of PSA Responsibilities, that would allow municipalities to make a change to their state designated EMS provider in the event that the municipality has a plan to improve Improved patient care, create a more efficient allocation of resources, regionalize, or to align with a new EMS provider better suited to meet the community's current needs.

As a leader in the Farmington Volunteer Fire Department it is important that the towns gain the control for accountability, quality assurance and most importantly consistent patient care. I thank you for your support.

Thank You,

Todd Jones
