

Jan Fable HB 5144

To Public Health Committee Co-Chairs Representative Terri Gerratana and Representative Susan Johnson, and Members of the Public Health Committee:

I am the biological mother of a son given up for adoption 45 years ago. I am writing to ask for your support of Raised Bill 5144, An Act Concerning Access to Birth Certificates and Parental Health Information for Adoptive Persons. I strongly believe that ALL adult adoptees should have access to their original birth certificates, and the bill should be both retroactive and prospective.

Thank-you very much for your consideration.

Sincerely,
Jan Fable
